## STATEMENT OF PURPOSE

We aim to provide effective and compassionate healthcare to the population we serve.

We aspire to:

- Offer a high standard of medical care, which recognises the importance of physical, psychological, social and spiritual factors for health and wellbeing.
- Work in partnership with our patients to provide care which is centred on the needs of the patient.
- Value and respect each person, regardless of age, sex, race or religion.
- Use the resources available to us as equitably and effectively as possible.
- Provide a positive model of general practice care for those who train and learn with us.
